PAINTS AND AIRBRUSHING

The premium high quality lacquer-based acrylic paint offers many advantages to the Taxidermist. It comes airbrush ready, has excellent color hold-out with zero bleed through. The paints are UV (ultra violet light) stable. Since the paint is a lacquer-base it dries very fast, there is no waiting to apply the next color, thus no wasted time! Lifetone paints have high hiding pigments which cover easily in one pass, yet has a low build up rate which will not cover small scale detail. Sold in 8 oz. bottles.
