These are the highest quality reproduction heads on the market. Since they have been cast from raw frozen heads, their detail is superior to freeze-dry. We literally sorted through thousands of heads to find the heads that had the definition and detail we wanted. The painting is of highest quality and is near competition grade. If you are considering using reproduction heads in your turkey mounts, these are the best that are available.

# PAINTS AND AIRBRUSHING

The premium high quality lacquer-based acrylic paint offers many advantages to the Taxidermist. It comes airbrush ready, has excellent color hold-out with zero bleed through. The paints are UV (ultra violet light) stable. Since the paint is a lacquer-base it dries very fast, there is no waiting to apply the next color, thus no wasted time! Lifetone paints have high hiding pigments which cover easily in one pass, yet has a low build up rate which will not cover small scale detail. Sold in 8 oz. bottles.
